**Day 3 to day 13:** 11 days of hunting.

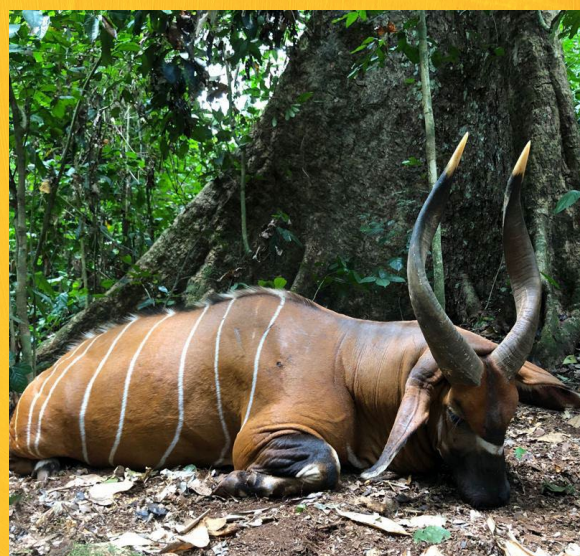

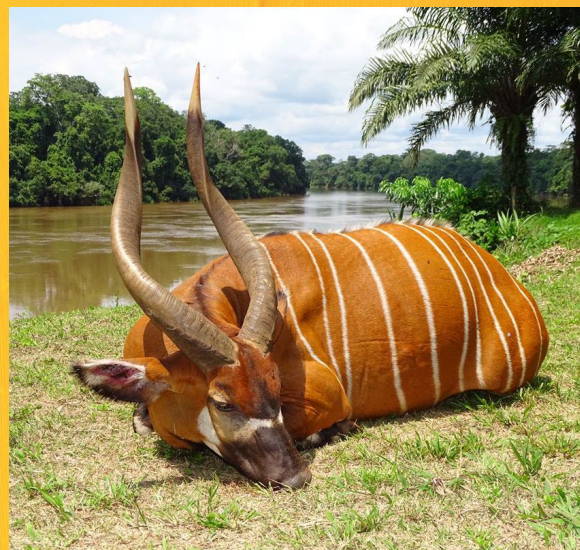

**Day 14:** Return to Brazzaville and international flight home destination.

**We advise** that you take 3 long sleeve shirts; 3 long trousers; at least 2 pairs of light (canvas) hunting boots with gaiters; rain-coat; jacket; 2 caps; headnet; headlamp; books; binoculars; GPS and camera. The hunt is dedicated to the search of the elusive bongo.

The hunt is done by tracking with the Baka pygmies in the rain forest.

This is one of the most incredible adventure that a hunter can experience. We are making studies on predators in Benin and on bongo in Congo.

Hunting bongo and buffalo is done by tracking. The Baka pygmy trackers know the forest intimately along with our hunting dogs the pygmies track until we get close enough for the dogs to bay the bongo or buffalo. It is a unique experience to hunt alongside the Baka pygmies and to see the forest trough their eyes. The safaris that we offer in the Congo are dedicated bongo safaris! The forest duikers are hunted on the call with the help of the pygmy trackers. You have to be quick and precise because these small animals are discreet and fast.
